

IMPORTANT NOTICE - Revised Active School Flag Application Forms

The Active School Flag (ASF) application forms have been revised. The new versions of the application forms (primary and post primary) are now available on-line under the Primary and Post Primary tabs.

All new applicants after 1st September, 2011 will be required to use the new version of the application form. *Schools that have already submitted their documentation to the screening committee can choose to complete the process using the older version of the application forms or to switch over to the newer version.*

The new single form application is a lot more ‘user friendly’ and much less time consuming in terms of the paperwork aspect of the process.

There are 15 review areas in the application form. Blank templates accompany 6 of the review areas. This will allow schools to present their information in a very clear and concise way.

The revised application forms are also accompanied by Application Form Guidelines to assist schools through the process.

The various steps of the Active School Flag process are outlined under the tabs on the right hand side of the page.
