

Step 1 – Register Your Interest

Complete the on-line registration form to indicate your school's interest in applying for the Active School Flag (ASF).

The Active School Flag is a whole school initiative and as such the whole school community should be made aware that the school is interested in working towards achieving the ASF.

This might be achieved in the following ways:

- a) Put the Active School Flag on the agenda for a staff meeting/planning day
- b) Use class assemblies to inform the pupils of the school about the process
- c) Include information about the Active School Flag in parental newsletters
- d) Notify the Parents' Association and Board of Management
- d) Designate a section of the school website to the Active School Flag
- e) Contact the Sports Partnership and HSE Health Promotion Officer/Physical Activity Coordinator for the area to make them aware of the school's interest in the ASF initiative
- d) Discuss the initiative with National Governing Bodies that may be working in the school

Research Collaboration with Mary Immaculate College

The Physical Education team at Mary Immaculate College (MIC), Limerick is currently investigating '*Physical Education and Physical Activity Provision in Irish Primary Schools*'. The MIC research team invites schools registering their interest in the Active School Flag to consider becoming a case study school for this project. More information will follow shortly.
